

THE FORCE.

California Department of Corrections. it's not what it seems like. it's actually the opposite. Rehabilitation doesn't exist. The Programs available are not available in every Prison. While incarcerated I've had to learn things my self. through self helping educational Books Such As NOLO Business Book. The Jobs pay so low that Restitution eats pretty much your whole check. But that's not the worst of all the current situations in Prison.

The Force is. The Force is a Prison Gang made up of corrections officers something like the Los Angeles County Sheriffs. "The famous" 2000 Boys Corrections officer already take an oath to have their fellow officers back. imagine that but with every write up. IIS and every IIS hearing an officer can never be wrong, so we always get found guilty. right or wrong. which is what adds time to our sentence. But also for example. I know this guy who is a lifer he hasn't gotten a IIS write up in 20 years. He was up for BPH. Board of Parole hearing they denied his Parole due to him not getting any write ups so he must be manipulating custody. 7 year denial. After all of the riots, stabbings, that go on in Prison. He ~~act~~ actually made it 20 yrs staying out of trouble. No easy task. I must say.

Currently I'm incarcerated in RJD. Richard James Donovan in San Diego I've watched so much corruption here through the administration to medical & mental health. Custody does the write up. Medical adds to the story & high ranking officers find you guilty. a couple of years ago. The Warden of the Prison got walked off of the Prison grounds for money laundering. he was stealing money to. this is the worst place to be incarcerated. Our property always gets lost broken or misplaced. The Force is responsible for so much confusion. & drugs within the Prison system. They bring in cell phones. Heroin. Weed. Crystal meth. VAP pens etc. I've watched Correctional officers drop off packs of cigarettes, to inmates. it's crazy I'm not trying to be a snitch or pick up what we can get on the low

But this shit is getting out of control here and in other institutions
I'm a African american Transgender woman. But listen in teaching
Bands. But watching inmates fight or stab each other for the
drugs custody is bringing on is crazy. I observed a fight
on the yard before & it was on a yard in front of Building
12. A C.O came out with his lunch pail. Looked at the fight
walked around and went home. No PAID Alarm. Nothing.
In my building two cellies stabbed each other. Went to the
medical, then to the main office and the only thing that
happen was they got separated. there was Blood everywhere.

Again the Force is a game & causing any drama or confusion
is there goal. I've tried to stay out of there way. But they
fuck with our mail, canteen hours & yard. its so crazy.

There is no Rehabilitation at all. Coming to Prison makes you worst
off because the Trades they have are limited. Education is limited
No real workable career choices.

So Before You get on jail cutie. Read this. Because it might
give you second thought about sending a petty crime offender to
Prison. its not worth it.

Thank You

Jamilah Knox
